## Education

**Indira Gandhi National Open University (**IGNOU**)**
*Master of Computer Application*                                                                        ***Pursuing…***
*Bachelor of Computer Application* **[** 67% **]**                                                        ***June, 2023***
**Central Board of Secondary Education (**CBSE**)**
Class XII th **[** 78 % **]**                                                                               ***March, 2020***
Class X th **[** 86 % **]**                                                                                ***March, 2018***

## Experience

1.  **Afame Technologies**
    ***Web Developer*** , Intern
    o  Developed and optimized front-end components with React.js, enhancing user experience and interactivity; reduced page load times by 30% and increased user retention by 20%.
    o  Implemented version control with Git, enhancing collaboration and reducing code conflicts by 40%; integrated APIs to boost website functionality, leading to a 25% increase in user engagement and retention.

## Projects

***Dashboard Website*** **|** Html, CSS, JavaScript , Bootstrap , React.js                    *Live* **|** *Source Code*
o  Created a React-based dashboard with reusable components, diverse charts, and tables utilizing React libraries.
o  Employed React Router for navigation.
o  Integrated API data fetching for dynamic table content with search capability, alongside form validation for data integrity and user input accuracy.

***Personal Portfolio*** **|** Html, CSS, JavaScript , React.js                                *Live* **|** *Source Code*
o  Built a React-based Personal Portfolio featuring reusable components.
o  Includes distinct pages such as Home, Skills, Projects, Services, and Contact.

***GeT_BooK (Web Book Store)*** **|** MERN, Tailwind CSS                                        *Live* **|** *Source Code*
o  Developed a web book store featuring both free and paid books.
o  Users can access free books without logging in, but must log in to access paid books.
o  Used Tailwind CSS for styling to ensure a modern and responsive design.

***Food Website*** **|** Html, CSS, JavaScript, Bootstrap                                       *Live* **|** *Source Code*
o  Crafted a visually appealing food website showcasing the diverse culinary offerings and services of a renowned restaurant.
o  Leveraged Bootstrap for efficient development, ensuring consistent styling and responsiveness across various devices.

***Bug Tracking System*** **|** Html, CSS, JavaScript, Java, JSP,  Mysql, Apache                    ***[Final year Project]***
o  Engineered a Java-based Bug Tracking System aimed at efficiently monitoring and managing project defects.
o  Improved software reliability and user experience through timely bug resolution.
o  Incorporated distinct roles (Employee, Manager, and Administrator) with tailored responsibilities and functionalities to streamline the bug tracking process.

***Academic Management System*** **|** Html, CSS, JavaScript, Java, JSP,  Mysql, Apache             *Source Code*
o  Conceptualised an Academic Management System using JSP to streamline administrative tasks.
o   Facilitated teacher-student interactions and empowered students to manage academic profiles efficiently.
o   Established distinct roles (Admin, Teacher, Student) with customized responsibilities and functionalities for seamless operation.

***News Website*** **|** Html, CSS, JavaScript , Bootstrap , React.js                              *Source Code*
o  Conceived and built a dynamic, responsive news website using React.js and Bootstrap.
o  Integrated modern front-end technologies to create an engaging user experience.
o  Initially implemented class-based components and later transitioned to function-based components. Managed web development, testing, and maintenance roles throughout the project.

## Technical Skills

***Languages*** : Java , HTML/CSS , Bootstrap , Tailwind , JavaScript , React.JS , Node.JS , Express.JS ,MongoDB , MySQL .
***Developer Tools*** :  VS Code , Eclipse .
***Version Control*** : Git , GitHub .
