Education

Indira Gandhi National Open University (IGNOU**)**
Master of Computer Application — ***Pursuing…***
Bachelor of Computer Application **[** 67% **]** — ***June, 2023***

Central Board of Secondary Education (CBSE**)**
Class XIIth **[78 %]** — ***March, 2020***
Class Xth **[86 %]** — ***March, 2018***

Experience

1. Afame Technologies

Web Developer , Intern

- Developed and optimized front-end components with React.js, enhancing user experience and interactivity; reduced page load times by 30% and increased user retention by 20%.
- Implemented version control with Git, enhancing collaboration and reducing code conflicts by 40%; integrated APIs to boost website functionality, leading to a 25% increase in user engagement and retention.

Projects

Dashboard Website **|** Html, CSS, JavaScript , Bootstrap , React.js — *Live* **|** *Source Code*

- Created a React-based dashboard with reusable components, diverse charts, and tables utilizing React libraries.
- Employed React Router for navigation.
- Integrated API data fetching for dynamic table content with search capability, alongside form validation for data integrity and user input accuracy.

Personal Portfolio **|** Html, CSS, JavaScript , React.js — *Live* **|** *Source Code*

- Built a React-based Personal Portfolio featuring reusable components.
- Includes distinct pages such as Home, Skills, Projects, Services, and Contact.

Food Website **|** Html, CSS, JavaScript, Bootstrap — *Live* **|** *Source Code*

- Crafted a visually appealing food website showcasing the diverse culinary offerings and services of a renowned restaurant.
- Leveraged Bootstrap for efficient development, ensuring consistent styling and responsiveness across various devices.

Bug Tracking System **|** Html, CSS, JavaScript, Java, JSP, Mysql, Apache — ***[Final year Project]***

- Engineered a Java-based Bug Tracking System aimed at efficiently monitoring and managing project defects.
- Improved software reliability and user experience through timely bug resolution.
- Incorporated distinct roles (Employee, Manager, and Administrator) with tailored responsibilities and functionalities to streamline the bug tracking process.

Academic Management System **|** Html, CSS, JavaScript, Java, JSP, Mysql, Apache — *Source Code*

- Conceptualised an Academic Management System using JSP to streamline administrative tasks.
- Facilitated teacher-student interactions and empowered students to manage academic profiles efficiently.
- Established distinct roles (Admin, Teacher, Student) with customized responsibilities and functionalities for seamless operation.

News Website **|** Html, CSS, JavaScript , Bootstrap , React.js — *Source Code*

- Conceived and built a dynamic, responsive news website using React.js and Bootstrap.
- Integrated modern front-end technologies to create an engaging user experience.
- Initially implemented class-based components and later transitioned to function-based components. Managed web development, testing, and maintenance roles throughout the project.

Technical Skills

Languages : Java , HTML/CSS , JavaScript , React.Js , MySql .

Developer Tools : VS Code , Eclipse .

Version Control : Git , GitHub .
